Pubcast - X-Force!

Tuesday, 21 July 2009

Episode 13 of the IT Security Pubcast.

Guy Denton came into the studio to discuss the IBM X-Force security team, as well as their recently released report on the state of the security landscape.

In episode 12 we discussed the Symantec Internet Security Threat Report – but there is another industry report which should be examined to get a clear overall view on the state of the security landscape. IBM maintains a security research and advisory organisation called the X-Force. Guy Denton from IBM came into studio where we discussed the work of the team, as well as their recently released latest X-Force report, found at http://www-935.ibm.com/services/us/iss/xforce/trendreports/
