

Pubcast Episode #4

Tuesday, 20 January 2009

Episode 4 of the IT Security Pubcast in which we:

- Discuss a recent Forrester report on the current state of Information Security;
- Get an update on the planning for the ITWeb Security Conference;
- Consider the implications of the financial crisis on Security budgets;
- Interview John Murdoch and Pieter v Niekerk on implementing a Security Operations Centre;
- Respond to the recent reports that SSL has been broken.
