

Scamto Episode #1

Monday, 20 April 2009

In this episode we interview Loyiso Tyira, the Chief Technology Architect from BCX about what it means to be a black IT professional in South Africa today, the current state of BCX, and his role in COPE.

DiscussIT releases the inaugural episode of ScamtoIT as an election teaser. Scamto pronounced 'scam-toe' and also known as tsotsi-taal, is a mixture of SA's official languages. ScamtoIT discusses and debates unconventional and controversial developments in the world of business in a roundtable with seasoned players.
